Please provide a description of the methods used to solicit community input on community needs (attach additional pages if necessary): Community assessment is an ongoing process, which was formally updated in 2007. In conducting our own community needs assessment we consulted with the above listed individuals. Each client served by MPHNA is asked to complete a satisfaction survey and a health needs survey. The Health Needs Survey is also made available to the general public of Meredith and Center Harbor. The Executive Director attends community organization meetings to discuss available services and community needs.
